

Broxap wishes to strengthen its Quality team with the appointment of a:

Senior Quality Engineer

As Senior Quality Engineer and a member of our small Quality team, you will support the various Broxap divisions in ensuring that products continue to meet the requirements of our demanding customer base. You will also be expected to ensure that sub-contract manufacturers produce product to the correct specification and on time.

You will be expected to:

- Support the every day issues which arise around monitoring of product and suppliers against standard type products.
- Complete site visits to resolve customer queries and complaints and ensure close off through the supply chain.

You should have:

- An understanding of metal fabrication.
- An understanding of powder coating processes and techniques.
- Demonstrable knowledge and experience of managing quality issues gained within a similar working environment.
