

Q1. How do I obtain prices for fencing & guardrail?

A. Budget prices may be obtained from the Broxap Main Product Catalogue or obtained by contacting our sales department. However for an accurate quotation, drawings or specifications may be faxed, posted or emailed to our sales office who will produce an accurate quotation by return.

Q2. Can someone visit site to offer advice?

A. Yes, Broxap has a team of Area Sales Managers who are able to offer solutions and technical advice on any of our products. Our expert team of draughtsmen and surveyors are also able to visit site to carry out surveys and subsequently produce drawings.

Q3. If I send drawings to Broxap by email do they have to be in a specific format?

A. Our drawing office would require drawings to be forwarded in the following formats: DGN, DWG or PDF.

Q4. Do your systems meet with British Standards?

A. Yes, all pedestrian guardrail is manufactured to the British Standard (BS 7818). Bow top and vertical bar fencing is also manufactured to meet the British Standard (BS 1722-9-2000).

Q5. What heights of fencing are available?

A. We are able to supply bow top and vertical bar fencing in a range of heights. These range from 600mm high to 2400mm high.

Q6. Does mild steel fencing and pedestrian guardrail rust?

A. All mild steel products supplied by Broxap undergo a process known as galvanizing. The product is dipped into a bath of molten zinc which forms a protective barrier around the products and therefore prevents rusting or oxidation. Broxap products are galvanized to the British Standard BS EN ISO 1461:1999.

Q7. Can you supply gates to match?

A. Yes, gates may be manufactured to suit any system. A number of options are available including both single leaf pedestrian gates and double leaf vehicle access gates.

Q8. What colours are available?

A. A standard range of colours are illustrated in the Broxap Main Product Catalogue. Alternative BS/RAL colours may also be available - please contact a member of our sales team.

Q9. Can you supply other fencing systems other than those illustrated in the catalogue?

A. Yes, we have our own fabrication shops and are therefore able to produce bespoke items on request.
