

## **FROM HEREFORDSHIRE WITH LOVE... WIGMORE PRIMARY SCHOOL**

Wigmore Primary School, Herefordshire were in need a covered area for pupils, parents and teachers to stay sheltered and dry in times when weather conditions would not allow them to do so. Broxap were able to design a bespoke canopy, tailor made to fit in the designated place and dealt professionally with the project from beginning to end. From site survey to installation our staff had the capabilities to complete the project without complication and with minimum disruption to the school.

Broxap received a personal call from Headteacher Mr Milburn to say how delighted he, and the school as a whole, were with the finished shelter. He passed on his thanks to everyone involved in this project, with special thanks to Reg Bradbury and Ian Matthews for their involvement and professionalism.

And lastly, Mr Milburn gave his thanks to Nick Podmore, who's photos are fantastic and will be posted on the schools web site and also given to other schools in the county.
