

# Cycle Parking Specification Sheet

## Easi-Riser Cycle Parking System BXMW/EASI-RISER

### Standard Unit Dimensions:

Height: 1800mm  
Length: 9100mm (4 Cycles)

### Length with Capacities:

1286mm (6 Cycles)  
1660mm (8 Cycles)  
1700mm (10 Cycles)  
2075mm (12 Cycles)  
2450mm (14 Cycles)  
2825mm (16 Cycles)  
3200mm (18 Cycles)  
3575mm (20 Cycles)

### Finish:

Galvanised Only Finish

The colours shown are a guide only.  
Please check a colour chart to see the  
actual colour.

## Product Information

The Easi-Riser is more compact than other two-tier options - this makes it ideal for space-saving storage when ceiling height is a consideration.

This two-tier cycle storage system is a cost effective option for space-saving cycle storage. Not only this, but the Easi-Riser includes a gas strut mechanism as standard - this makes operation of the upper level troughs exceptionally easy and all the more accessible.

## Features

- Each set of four "cycle spaces" consists of two upper-tier troughs and one lower-tier Sheffield hoop.
- Sheffield racks can be easily swept clean.
- Staggered upper level troughs allow for varying cycle hand bars to avoid clashing and enable easy operation.
- Gas strut lift assist mechanism for easy loading/unloading on upper tier.
- Can contribute towards gaining ENE8 credits when used in the appropriate situation, under the Code for Sustainable Homes.
- BREEAM and Code for Sustainable Homes Compliant.

## Materials Used

- Framework - Mild Steel

## Finish Options

- Galvanised to BS EN ISO 1461:2009
