## Product Information

The increase in traffic throughout our towns and cities has led to an increase in damage to kerbs, pedestrian guardrail and walls. These items are costly to replace or repair.

This has led to Broxap developing its specially-designed kerbside protector. It always ensures a vehicle is kept on the road and not on the pavement. Even high axled vehicles such as HGVs and buses cannot cross over the bollard due to its specialist design.

## Features

- Minimises 'corner cutting' by vehicles in pedestrianised areas
- HGVs and buses cannot cross over the bollard due to its specialist design
- Unique ductile iron bollard
- Available in a range of colours

## Materials Used

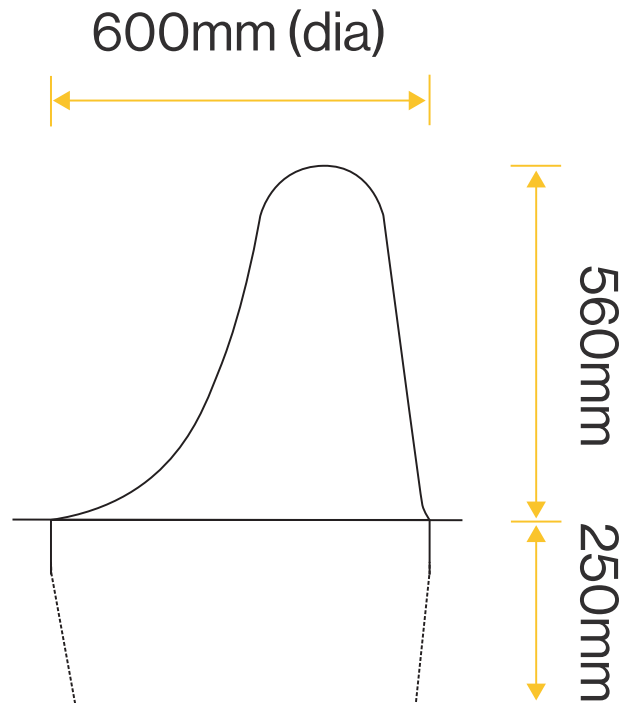

- Ductile Iron

Broxap Limited, Rowhurst Industrial Estate, Chesterton, Newcastle-under-Lyme, Staffordshire, ST5 6BD T: 01782 564411 E: info@broxap.com W: www.broxap.com
