actual colour.

Product Information

Robust cast iron square tree grille. Attached using spiked legged fitting or the actual frame can have specially fabricated lugs to allow them to be bolted together.

Features

- Robust Cast Iron
- Tree Grille
- Prevents compaction of soil

Materials Used

- Cast Iron

Fixing Information

- Frames are available as medium or heavy duty, the difference being the amount of central support provided.
- The tree frame is secured into a concrete base by either bolting or sinking the tangs into wet concrete.
- The concrete base sections should be approximately 150mm wide and 200mm deep to provide adequate support.
- The tree grille is secured to the frame using anti-theft clamps.

Options

- Other colours available
