Product Information

A combination of our three most popular shelters, this cycle compound combines the Wardale, Littleborough & Newcastle Cycle Shelters. The Newcastle Cycle Compound is a modular compound that has a centre access point and parking to the left and right within the compound. It is a combination of the Wardale, Littleborough and Newcastle shelters which creates a large covered and secure cycle parking solution.

Features

- This combination of Wardale[™], Littleborough and Newcastle shelters can cover a large expanse
 of area and give a tremendous amount of space to the parking of cycles.
- The curved profiles of the roofing sections lend themselves to contemporary and semi-rural environments.
- By adding Littleborough intermediate frames within the compound more space for the user is created.
- Can contribute towards gaining ENE8 credits when used in the appropriate situation, under the Code for Sustainable Homes.
- BREEAM and Code for Sustainable Homes Compliant.

Materials Used

- Framework Mild Steel
- Cladding 4 mm PETG uv
- Fasteners Zinc Plated
- · Cover Strips Pre-galvanized steel flat

Finish Options (Framework)

- Galvanised to BS EN ISO 1461:2009
- Galvanised to BS EN ISO 1461:2009 & Polyester Powder Coated

Broxap Limited, Rowhurst Industrial Estate, Chesterton, Newcastle-under-Lyme, Staffordshire, ST5 6BD T: 01782 564411 E: info@broxap.com W: www.broxap.com

Wardale/Littleborough/Newcastle Cycle Compound WARDALE

Weather Resistance

Cladding is UV Stabilised Wind resistant to 23m/s
