Product Information

High visibility pedestrian guardrail manufactured from 50 x 30mm box section steel with 12mm staggered infill bars (16mm available on request).

Features

- Manufactured from 50 x 30mm box section steel with 12mm infill bars.
- Infill bars are staggered giving the effect of creating space when viewed at an angle.
- Available in standard 2000mm panels (shorter panels available on request).
- Priced per 2000mm panel.

Materials Used

- Mild Steel

Options

- Finished galvanised or galvanised and powder coated.
- This fencing can also be produced to site specific levels.
- 16mm infill bars available on request.
