Product Information

The unit is designed around standard components on a 1500mm module, allowing the length and width to be variable to suit the customers needs.

This sleek, contemporary glass and steel composite shelter is an ideal passenger waiting shelter that can be utilised as a bus stop, taxi-rank, pay and display or pick-up point. Robust and modular in design this shelter configuration is tremendously versatile as the glass side panels are able to be relocated to align entrances in multiple positions.

Features

- Glass panels and doors can be repositioned to suit various configurations
- Full length robust perch seat fitted internally
- LED lighting units operating on dusk/dawn sensors
- Hidden gutter to rear to drain roof water down shelter legs
- Access panels to three sides of shelter eaves to facilitate wiring of lighting, real-time bus information and CCTV etc

Materials Used

- Structural galvanised steel support frame with perimeter clad in 10mm toughened safety glass and composite "Trisomet" roof panel.

Finish Options

- Hot dip galvanised to BS EN ISO 1461:2009
- Polyester powder coated paintwork in 19 RAL colours
