

Freestanding Heavyweight Football Goals Package - 16' x 6' BX/DC 2965-PAK1

Freestanding Folding Football Goals in 7-a-side steel ideal for use on artificial surface pitches where the pitch is multi-use. Complete package includes goals & nets. **Supplied as a pair. Also includes 4 x free Santos footballs and ball bag with every pair of goals ordered.**

Freestanding Football Goals with folding net supports are designed to be used on artificial surfaces or multi-use training pitches where the goals can be folding and moved when not required. The goal posts are 7-a-side (16' x 6') made from steel, sit freestanding on the ground and collapse flat for easy transportation. These goals should always be anchored at all times to meet the British standard below (anchors available separately). Nets are supported with full international net supports that run from the crossbar to the backbar which also acts as the frame of the goal. When in use, our heavy duty link pin ensures the net supports stay firmly in the open position (and vice versa when closed for transport).

- Made in the UK.
- Tested to BS EN 8462.
- Manufactured from 60mm OD diameter x 3mm thick steel. Corner joints are seam welded for maximum strength.
- Crossbars slide into the uprights and bolt together using corrosion resistant fixings.
- 50mm square x 2.5mm thick steel drop over back bars for quick assembly.
